Product Benefits & Features

A self-cleaning oven

With one touch of the Pyrolytic cleaning function, dirt, grease and food residue in the oven is converted into ash that you can easily wipe off with a damp cloth.

Cooked Evenly everywhere

With this oven, using energy efficiently also means cooking efficiently. It has a new convection system called Hot Air, which ensures hot air circulates evenly throughout the oven cavity. The result is that the oven heats up faster and cooking temperatures can be reduced by up to 20%, saving you

Absolute accuracy, every time

The clean glass display with touch buttons gives you even more control over your cooking. The timer is activated by entering start/stop through the LCD screen. Meaning you can expect absolute accuracy - even if you momentarily step away from your oven.

A luxurious look and feel combined with premium performance

The Soft Closing Door technology built into the soft closing door ensures that the door always shuts softly and silently, to deliver both the look and feel of premium performance.

The oven that stays cool to the touch
