### Combine cooking zones for bigger pots and pans. Double Bridge

Got a large pot for a casserole? Using a plancha? Well with Double Bridge, you can combine two cooking zones on both sides of the hob to give uniform heat distribution to your large pots and pans.

### After cooking, quietly clear the kitchen air with Breeze

After the cooking is done you want to be able to enjoy your meal and discreetly freshen the kitchen air. The Breeze function quietly clears the kitchen air, without disturbing the ambiance for you and your guest.

### Easy to clean. Easy to remove. 2-in-1 Filter

The 2-in-1 Filter combines both a charcoal and grease filter that removes odours and grease. If the appliance is installed in recirculation mode, then a 2-in-1 filter is needed. The Filter is easy to remove and can be washed in the dishwasher.

### Automated extraction. With Hob2Hood

Hob2Hood technology allows for automated extraction during cooking. If you turn the temperature up or down on the hob, the extractor's fan will adjust itself accordingly. Meaning all your focus goes into your food.
