

## IDK84451IB Hob\_Hood\_Integrated

### Freedom in kitchen design

Ever wanted to design your kitchen however you want? With the new ComboHob from AEG you can. This induction hob doesn't need a conventional hood hanging over it. The hood is already integrated in the hob. This means you no longer are restrained by where you place your hob in the kitchen. With the ComboHob you have the freedom to place it wherever you want, without having

### Place it wherever you want

The unique 2in1 design of the Combobob makes it possible to integrate it anywhere in the kitchen. You are no longer restricted in placing your hob in where you like it, such as on a kitchen island, or maybe in front of the window. And it doesn't take up more space than a regular hob.

### Easy cleaning and maintenance

Cooking can be effortless when cleaning is this easy. The circular grid in the centre of the hob can be rotated and removed. Meaning ease of access for cleaning the aluminium grease filter and the effortless maintenance of the high-efficiency odor filter inside. Ensuring ongoing pristine and performance.
