

Adaptive temperature, for total food protection

Ultimate temperature control with ColdSense. Cold sensors monitor temperature in the fridge and in the room, reacting immediately to adjust to the precise temperature. 40% faster cool down and less temperature fluctuation for your food. Produce is kept at its peak, crisp, fruity, full of aroma.

Product Benefits & Features

Lock in nature's goodness, with ColdSense

Automated temperature control with ColdSense. Every time the fridge door is opened and closed; cold sensors react to bring the internal temperature back to normal. Protecting your favourite foods from shock temperature changes, while locking in nature's most subtle flavours.

LowFrost makes defrosting easier, and needed less frequently

Efficient Fridge Freezer with advanced Low Frost technology which makes the work of defrosting easier and less often needed by using hidden cooling circuits that minimize frost build up.

Manage functions and temperature with Electronic Control

Electronic control gives you the ability to make precise modifications of the temperature and other storage functions. This efficient Fridge Freezer also gives you instant feedback of your adjustments on the digital control panel.
